

Touring Cinema Information

Hello all, Carnforth Town Council are in early stages of establishing a project locally for a 'touring cinema' . We know of a similar project that is working very successfully in Cumbria run by Eden Arts whereby portable equipment is set up in village halls showing a wide range of popular films.

We understand that the success of the project has been such that it is helping to break down social isolation and is building community cohesion - as well as being a great opportunity to generate income from ticket sales! There would be no up-front costs, insurance and equipment would be provided and local communities would have access to a range of the latest 80 + films.

Depending on the potential 'take-up' more detailed and technical information will be made available but, at this stage, we are simply looking to gauge the level of interest amongst our neighbouring parishes/communities in participating in such a project. So, please would you discuss this at your parish/Town meetings and let me know at your earliest convenience and let me know whether or not they would be interested in taking this further?

Many thanks and I look forward to hearing from you.

Bob Bailey
