

“A number of bus operators in Lancashire are offering free travel to passengers going to get their Covid-19 vaccination and boosters, following discussions with Lancashire County Council.

Residents will be able to travel to the vaccination clinic where they have an appointment when using any service in Lancashire run by Stagecoach and Coastliner Buses, which operates on the Fylde coast.

All you need to do is show your driver a text or email on your phone, or a letter or other printed document that confirms your appointment for that day.”

The free travel offer is in place until further notice.
